I swear to God if I hear the word "problematic" one more time I'm gonna kill someone

I'm so sick of these self-flagellating, virtue-signalling, effete Brooklyn dilettantes acting like they give a fuck about worker's rights and class consciousness.

No you fuckin' dont. You can't sit in your loft in Bed-Stuy paid for entirely by your parents and tell me that you give a shit about a plumber in Indiana

making 35K a year while simultaneously "cancelling" him for saying 'retarded' or 'faggot' FUCK YOU!!!!!! Who the fuck do you think you are???

(Marx obviously)
sorry that the working class doesn't give a fuck about the nuances of gender politics.

You're literally the reason Trump won, but keep maintaining the delusion that you're some sort of revolutionary with your fucking colored hair, your gender-neutral pronouns, and hammer + sickle tattoo on your flabby, piece of shit body because working out is "toxic masculinity".

Is this really all the Left has any more??? A transwoman who had her head bashed in by a cop at Stonewall was banned from Facebook for saying 'tranny' in a post.

If the Left-wing doesn't grow even the most minuscule of testicles within it's castrated, corpulent, limp-dicked form then soon Fascism really is gonna fuckin' win

ain't it??? And it fuckin' will too. The retarded radical Leftie identity politics is going to be what kills any meaningful class-consciousness permeating through the masses. Fuck you ya soft cunts. Rant over. Sorry, too much Twitter today.

"one of my rants 11/11/19 "

Don Cherry Mr. Hockey Night in Canada got fired the other day after like 40 years in his job for sayin' immigrants should wear the poppy for Remembrance Day

All these immigrants do is try and force us to adopt their backwards ass shithole country's customs and scream kill Whitey.

They all need to fuckin' go back, every goddamn last one!!!! Fuck immigrants and fuck living in this broken society.

Then you got Boomer retards that believe everything that the holy sacred fucking television has to say.

Imagine being such a Liberal braindead idiot to actually believe some of the lies the powers that be try to foist on us.

From protesting Vietnam to sending our men to die for Israel and oil... I hate White liberals, I hate all liberals.

All the Boomers know how to say is "it's mine" and "work harder" and "I don't care" Fuck all this bullshit

Keep pushin'!!! The worlds an ugly place.

"Why Imageboards Suck Now"

>Imagine you're at the movies with your friends. You have some in-jokes and you rib each other for fun. Then, someone approaches your group with the Encyclopedia
>Yourfriendsica (or Encyclopedia Dramatica). This complete stranger claims to have studied the banter, pretending to be one of your crew all along.
>No matter how hard you try to tell him otherwise, there he stands, using all your in-jokes, often incorrectly.
>When someone makes a joke, this guy corrects him with the textbook definition of your in-joke and all you can do is stare at him funny.
>Eventually, more of them join your group and start to displace others who could've continued the spirit of your core group.
>Your friends leave, and the group becomes a group of people impersonating your group of friends.
>The cycle continues indefinitely until the theater goes out of business bickers nobody wants to associate with these losers.
>This is precisely why Encyclopedia Dramatica was very controversial between 2007 - 2009.
>That site was singlehandedly blamed for creating newfags who in turn WERE GAY until the moderators pushed back by banning them.
>Despite their best efforts, the damage had already been done.
>By the time sites like Know Your Meme and the like cropped up, the mainstreaming of imageboard culture was complete, and ED looked underground by comparison.

"Same Rant Part Two"

As long as it's a priority for websites and users to hold hands thru everything it's just gonna get worse and worse every year. I was on 4Chan for the last year for want of any content and they are in a sorry state and it reflects on everybody who adopts their fashion of posting.

- Sauce??? (even though most imageboards have implemented reverse image search for the last 6 years.)
- Bringing new users up to speed on thread history or the meaning behind a meme. No lurking required; welcome to the club
- Giving out massive collections of content that nobody has to work for, that the author of the torrent acquired measured to his own taste
- and then threw in a buncha other stuff just to look complete. But it must be worth something 'cuz there's 180 GB of it right???
- Posting screencaps of celebrity posts on Twitter, as if that part of the internet is even worth lookin' at.

"Vague AnPrim Word Salad"

We are in a post-post-modernist age. Irony and sarcasm are ingrained in us as humans to tackle and understand difficult concepts. Everything has been deconstructed to it's 'logical' conclusion. In this we have lost the very concept of logic. Every one has become an island unto themselves. We have turned screaming into the Abyss into an artform. With the rapid pace of technological growth we have all gone mad. The Divine spark, the Nous, can inspire each and every one of us if we just slow down, disconnect, and let it. Man has evolved concurrently with Nature but now we have ascended to unreal levels of human awareness/human stupidity. We are slowly being computerized and mechanized by an elaborate system of NWO mindcontrol. Behavioural control. Orwell's nightmares. If the people were aware of how successful MKULTRA really was... Well, they never will be, that's how successful it was. Truth is strange.

Truth can guide us but so too can magick or faith. Humanity stripped of it's very essence and devolved into something primal THROUGH THE TECHNOLOGY.

All to line some bigwig's pockets. Narcissism to go thru the power process. Everything Ted K. said came true.

How good could your state possibly be if it is literally driving people to leave the fucking planet??!??!?

It's unethical for a group of people calling themselves "The State" to demand money from people who haven't consented to purchase any good or service from the State and then kidnap and/or rob them when they refuse. What's even more absurd and outrageous is that everybody takes it for granted, nobody even questions it, but whaddya expect from this worthless species of stupid monkey creatures; they are DEFINITELY NOT a group of freethinkers.
